

The Interns.

2nd December 2021.

Mr. Banlon Jones,

An Appology Letter

We are writing this letter to address the miscommunication we had yesterday. We did not review the minutes of the morning standup meeting to see exactly what was written but from your reaction it wasn't taken well. For that we are sorry.

Our complaint was about the fact that you kept reminding us of how much of a dead weight we are to the company. How unprofitable it is to the company to have us as interns. On further review from our side we have an idea on your point of view that it is a joke. So please understand us too.

Criticism is part of growth and we are not against that, we learn from it. We understand you made the decision not to come to our area based on the above mentioned minutes. We cannot compel you to visit us against your will, but you ought to know that those visits are much appreciated.

Yours Sincerely,
