

MINUTE OF MEETING HELD AT AMPHI 250 AT THE UNIVERSITY OF BUEA, ON
THE 7th of November 2021

The meeting started at exactly 20 minutes past 3pm with a brief word from Daniel, explaining the progress of the implementation of the app.

He made mention that most of the technical work has been accomplished and the work will be completed soon.

The members who attended were given the opportunity to go through the application and comment on it, explaining what they think should be removed or added.

Thalita suggested we add the notification module so that when there's an update, the user can be notified through a text message.

Simplicite suggested that a share button should be added to every paper which will contain a link to the application on playstore, this will always be available to play store if someone clicks on it.

Arnaud will add the social media handles to the lower part of the side bar menu (facebook page, IG, instagram, twitter, LinkedIn, whatsapp).

The splash screen should contain the EDutive logo and some writings beneath it.

Discussions proceeded with the analysis of the total cost to get the app hosted on playstore and running. The following were resolved:

- 10. 000FCFA to purchase a domain name for edutive
- 25. 000FCFA for the hosting of the app on playstore
- 21. 000FCFA for Facebook and IG adverts
- 10. 000FCFA for producing posters
- 10. 000FCFA, Money for ASTHEMA and Terrence

Total = 76. 000FCFA

Grand Total = 80. 000FCFA

It was generally accepted that each member contribute the sum of 13. 500FCFA (THIRTEEN THOUSAND FIVE HUNDRED) which will give the sum of 81. 000FCFA.

We agreed to meet with already existing organisations to help us connect to schools to talk to some of the students about the application.

We also agreed to meet with Terrence to talk about Tech and use the opportunity to advertise the application through the radio station.

Since we understand the difficulties in raising such a huge amount of money at once, we agreed that the sum of 5. 000FCFA be made in two weeks

so we can use it to host the application and also to purchase a domain name while we look forward to raise the balance, but not withstanding, if

you can give it all at once, no problem, it'll be of great help.

The money will be paid to NJITA ARNAUD TENKAM mobile money, which he will make available his momo number.

It was agreed that before hosting the application and start with the adverts, we need to put at least 1000 questions and 1000 solutions on the application, since we'll make our money through the purchase of the solutions. This means that we shouldn't relent our effort and continuously providing the questions until the app is made available.

The following members were present at the meeting today, in order of arrival time:

NGECHOP SIMPLICE

NDZO DANIEL

NJITA ARNAUD

MOPOCK THALLA THALITA

CHI CLAUDETTE MAH

Minute presented by Ndzo Daniel Ughe

Thank you all and stay blessed
