Daily standup evening session meeting

This report is to provide an update about the various tasks performed by the interns on the 2nd of December 2021. Everyone set out objectives at the start of the day to accomplish at the end.

Tasks accomplished during the day

1. Vifieh Ruth
   - Did one email template and wrote test on it in the email template project.

   Challenge

   - Didn't finish her task because she had to translate previous emails to French.

2. Kuou Sulaymane
   - Did UI for deleting files in the file storage project.
   - Reviewed Daniel's code.

   Challenge

   - Had to wait for group members to merge their code before proceeding.

3. Suh Edmond
   - Completed logic for fetching files in the file storage project.
   - Started implementing zip directory.

   Challenge

   - Time constrain

4. Fiona Anye
   - Reviewed Morelle's code.
   - Had meeting with Mr Tanko

   Challenge

   - Toast and alert components were not done because Mr Tanko cancelled them.
   - Library for telephone component was given late today, so could not do it.

5. Morelle Olivia
   - Worked on popover and dropdown components in the ggxp project.
   - Reviewed Fiona's code.
   - Had meeting with Mr Tanko

Challenge

➢ Still trying to understand the project.

6. Ndzo Daniel
   ➢ Did file upload logic in the file storage project.
   ➢ Reviewed Sulaymane's code.

7. Babi Beula
   ➢ Worked with Mr Tanko
   ➢ Wrote tests on her email templates.

Side note

➢ Rewrote tests on her old templates because the structure didn't correspond with the specification.

8. Chi Claudette
   ➢ Did ui to add user to an application in the API security project.

Challenge

➢ Still trying to understand the logic of the project.

Conclusion

Despite all the challenges, most of us were able to accomplish majority of our tasks, while others accomplished all the goals set at the beginning. This made the day fruitful and successful.
